

LUIZ ALMEIDA

SENIOR FRONT-END ENGINEER

PROFESSIONAL SUMMARY

Software engineer with over 14 years of experience building scalable web and mobile applications. I've worked across a variety of industries, including SaaS and e-commerce platforms, using modern technologies like React, Node.js, and Ruby on Rails.

I enjoy working in fast-paced environments where I can solve problems and be creative. Over the years, I've focused on delivering smooth user experiences while ensuring the backend is solid and scalable.
